Dear Sir:

Applicants submit herewith, in accordance with 37 CFR § 1.98, the patents, publications and other information listed on the enclosed Form PTO/SB/08a.

Pursuant to 37 CFR § 1.56, the citation of references is not intended to constitute an admission that any reference referred to herein is prior art to the invention of this application.

Regarding the Notice of Allowability dated November 22, 2010, Applicants note that previously-submitted foreign reference **KR20020025963** (Cite No. 002) was indicated as not having been considered because it was believed that a copy of the foreign patent document and its English translation were not provided. However, Applicants have verified that a copy of the foreign patent document, together with its English-language Abstract (**1020020025963 A**) were submitted with the IDS dated October 21, 2010. These documents are available in the file wrapper of the present application.

Upon further review, however, it was discovered that the "T" column corresponding to KR20020025963 was inadvertently checked on the previous form. Applicants do not knowingly possess a full-text, English-language translation of KR20020025963, but have only the Abstract information and foreign patent document which were previously submitted. To avoid further confusion, KR20020025963 and its Abstract are resubmitted and an appropriate indication of "(Resubmitted - Abstract Only)" has been added to form PTO/SB/08a. Applicants respectfully request consideration of all references, including the previously-submitted documents.

The fee set forth in 37 CFR 1.17(p) is enclosed. If, however, it is determined that additional fees are owed, Applicants hereby authorize that such fees be charged to Deposit Account No. 17-0026.

Respectfully submitted,

Dated: January 21, 2011
